Education is complete process that leads to attainment of the full potential of the child. Our endeavor is to equip our students with life skills to face the real world and dealing with challenges confidently. "In order to develop the writing skills of students, St.Xavier's Group has come out with the concept of releasing Newsletter "POTPOURRI". Let the children explore their writing, creative and editorial abilities by means of their write ups in the form of paintings, poems, stories, cartoons and other literary works. Congratulations to the Principal, staff, students and parents for their innovative endeavors. Let the young xavierians blossom with fragrance".

- Dr. G.S. Patnaik
CMD

Students of St.Xavier's have a wealth of programs that we believe will enrich their appreciation of the arts, music, physical well-being, science, and sports. For example, we have a program teaching students how to use and not abuse technology. As we teach our students how to become successful citizens, they learn that we do not tolerate bullying at any level on the school grounds, the bus, or any school related activity, nor do we look the other way. You will see that not only do we want our students to feel safe and their parents to know they are safe, we want all of our students, teachers, parents, and community to take pride in all we do each day.

At Xavier's we are fortunate to have a strong and active team of teachers and educators who acts felicitators rather than teachers and encourages all parents and students to actively participate in the activities of the School. I also urge you to take an active part in what your child is required to do at home and to support independent reading. The road to a successful adulthood starts early. We strive every day to make sure that while the path may not be easy at times, what is learned at Xavier's will inspire a student to do the best work possible at every stage.

There is a lot of information contained in this Newsletter and more will come time to time.. In addition, you should always know that all of us at Xavier's believe in open communication. We are here for your students and for you.

Best Wishes to all on the publication of this News Letter and hope healthy communication between Teachers and Students, Teachers and Parents and Parents and their children continue to build up healthy relationship at all stages.

"We are all just ordinary people trying to do extraordinary things"

Welcome to St.Xavier's Chain of Schools, Bilaspur Region. We take pride on being a caring community of learners that fosters pride in each student's developing abilities while promoting social development. We build the essence of community each day in every classroom touching all of our students. We know that no meaningful learning can happen unless students feel safe. Building on where Hurlbutt left off, we use the Responsive Classroom approach to teach children to act responsibly, take responsibility, and treat each other with respect.

Our teachers use a variety of innovative instructional approaches such as Workshop to instill a love of learning and build confident, competent students. This approach naturally differentiates the learning for all students, to meet the individual needs of each child, and to challenge them to be their best. Our goal is not only to promote literacy, but more importantly, to inspire our students to read and write as part of daily life. We focus on enhancing students' ability to think critically and creatively, and to be innovative problem solvers and proficient communicators; to speak and write effectively and clearly – across all subjects. Indeed, it is a foundation of the district's AIM (Academic Innovation & Measurement) initiative, to go beyond core academics. We are excited that all of our students will be able to participate in this initiative this year, so we can help insure our students develop skills and capacities that contribute to making them successful citizens, and more effective communicators and collaborators to become truly successful in the 21st century.

Dr. Ananya Sen
H.R. Head

I extend my heartfelt wishes to all the teachers and students of St.Xaviers School for penning down their thoughts in a creative and splendid way. Many more endeavours to come

Warm Greetings !

Schooling is our first contact with the World, a period of joy, healthy competition, fearing, adjustment, sharing and love. It is not the wide open spaces, classrooms, library, laboratories or large fields that make the school. It is in the heart of the students and the staff that the true institution exists.

Learning is not a process limited to schools and colleges only, nor does it end with the conclusion of one's school career. It is indeed a life long process. This school is oriented to the total formation of a child and to adaptations of various methods suiting the dynamics of changing world in order to achieve common goals and adjectives.

Mr. Manoj Karemore
Vice Principal

ARTISIAN OF THE LIFE

"The wisest person ever I had seen was a 3rd grade dropout". I had met him near a tree during the rains, the boy was playing with rain water with beautiful smile. I had a little conversation and came to know that he was an orphan. I was amazed as he was very happy with his life. I asked the reason of happiness, he told that this is because my inner fire is more brighter than the fire around me. Suddenly rain stops and we left each other but his words were continuously striking my mind. Really life is easy to explain but difficult to understand it well enough. A loser has thousands of reason that he can't achieve but a winner has only one reason that he achieved. So, write today's date take decision to fight your failures, so that when you will look back you can say that was the day I have changed my life. There are many problems in life. But by knowing this my life always smile...
